

The Lund Concept: EVIDENCE-BASED MEDICINE FOR NON-SURGICAL ICP REDUCTION

At the conclusion of this program the participants will be able to:

1. Understand the physiological principles underlying the regulation of the volume the brain under normal and pathological conditions.
2. Present and discuss the physiological basis and the pharmacological principles of the Lund concept.
3. Understand and discuss the limitations of CPP targeted principles for regulation of increased ICP
4. Understand and present the principles of bedside monitoring of cerebral energy metabolism utilizing the microdialysis technique.
5. Understand the principles underlying evidenced based medicine: what it is and what it isn't.
